Diverse Leaders in Transport

The Diverse Leaders in Transport conference will take place in **Central London** on **Wednesday 22nd January 2020**.

Event background

Leadership teams across the transport sector have some way to go to in achieving a level of diversity which is truly representative of the populations they serve. Female, BAME, LGBT & disabled colleagues are significantly underrepresented in senior leadership positions across the transport industry; from roads, rail, ports and airports much more needs to be done to correct the imbalance.

According to ASLEF, only 6.5% of train drivers are women and just 8% are from BAME backgrounds. Meanwhile, the Centre for Aviation states only 4.3% of airline pilots are women and whilst this is an increase from 3.4% in 2008, representation in senior leadership positions is significantly less.

The unique **Diverse Leaders in Transport conference** will explore ways to increase diversity across the transport industry and in leadership teams. Offering practical advice and coaching on how to further develop careers in times of change, we will discuss together how we can manage the challenges of modern leadership and help ensure we don't lose momentum in recruiting, recognising and rewarding diverse leaders across the transport industry.
