## **Overcoming Unconscious Bias: Fostering Conscious Inclusion at Work**

**Thursday, 28th January 2021 | Online Event**

Conversations around diversity and inclusive behaviours have changed radically over the past months and years, altering business agendas as well as consumer and staff expectations as a result. Organisations must get serious about advancing positive change if they are to **attract the best talent**, ensure that their staff can **achieve their potential** and **protect their reputations** for good business practice.

With this in mind, Dods D&I are offering a practical, immersive and comprehensive training day, to enable you to **ensure that inclusion is consciously fostered** and unconscious bias is overcome in your organisation.

Join us for our '**Overcoming Unconscious Bias: Fostering Conscious Inclusion at Work**' event,

where expert speakers will guide you in how to tackle instances of unconscious bias at work and how to train staff to recognise where bias might occur. You will come away with the tools and knowledge you need to **create the necessary conditions for conscious inclusion in company culture, processes and practice.**

*Please note that video recordings of each session will be made available to delegates in the days following the event.*
