Business Disability Forum

We are Business Disability Forum. We believe the 26 million people in the UK and over 1 billion people worldwide with disabilities and long-term conditions enhance the social and economic health of our societies. We exist to remove barriers in business structures and Government that prevent disabled people from thriving and contributing in this way. Some of the ways we do this is by helping businesses improve how they attract, recruit and retain disabled talent, as well as ensure their products and services are fully accessible for disabled customers and service users. We provide in-depth consulting services, training, with day to day guidance from business partners, senior business partners, legal, policy and advice service.
