Centre for Ageing Better

The Centre for Ageing Better is a charity, funded by an endowment from The National Lottery Community Fund, working to create a society where everyone enjoys a good later life. We are focused on bringing about lasting changes in society that make a difference to people's experience of later life, now and in the future. This means more people in fulfilling work, in good health, living in safe, accessible homes and connected communities. Working in partnership with a range of organisations, we bring about lasting changes in society, particularly for those approaching later life and at risk of missing out.
